Instead of throwing Collector Nathan's own General Committee overboard, as Navaid Officer Willis proposed, Mr. Elwell advised way from the plantiff, "the unit bearers, but to change their timeral methods by making new rules.

Chief among these proposed rules is a provision that campaign cash shall be raised by individual contributions and not by Mr. Willis's plan of taxting sub-bosses. The exact language of Mr. Elwell's proposition is as for concluded:

Atticle 6, Section 1.—The Treasurer of each exting of the District Committee as a line and the District Committee as a local continuity of samples of the Continuity of the Co

ganization, and 20 per cent, of all contributions seed we shall be retained by the Treasurer for payment of election district expenses on written orders of the Secretary, countersigned by the Unitarian.

Other changes proposed by Mr. Elwell are alleged by Willisites to be merely political bluffs, designed to smooth down the indignant partyworkers who are not on the inside, but must be kept in a good humor.

The document submitted by Mr. Elwell entirely ignores Navai Officer Willis and his Philadelphia junketing committee, and is looked upon as Collector Nathan's plan for outwitting the Navai Officer.

The latter is going to night for his \*\*20 per sub-boss "clause, however, and expresses the opinion that voluntary contributions when there is no patronage to offer as a quid pro quo—jobs at the Navy-Yard—are out of reach. His estitusiasm over the Philadelphia assessment plan has not been chilled by Mr. Nathan's opposition, and it is very probable the rival bosses will have to fight out their differences on this financial question.
